termination suffered. He received a right to sue letter on October 4, 2024, this charge and timely files this lawsuit to vindicate his rights. Mr. Brown has exhausted all applicable administrative remedies.

### **FACTUAL BACKGROUND**

9. Mr. Brown is an African-American male. On or about December 18, 2023, he was wrongfully terminated from his position as a Sales and Marketing Representative at G&A Outsourcing III LLC DBA, Point Lab at 145 Promenade Way, Suite 2, Sugarland, Texas location.

10. Defendant Patel is the co-owner of Plaintiffs former place of employment. Patel was Plaintiffs direct point of contact and acting manager at the time of his employment.

11. As a Sales & Marketing Representative, Brown provided assistance to offices in the Greater Houston area and surrounding towns. Mr. Brown was further responsible providing support to offices, making and maintaining relationships, and assisting with laboratory needs, testing equipment and supplies. Brown was the gateway between the offices and the lab.

12. While employed at G&A Outsourcing III LLC DBA, OnPoint Lab, Brown was the only sales and marketing representative in the Houston area.

13. During his time with G&A Outsourcing III LLC DBA, OnPoint Lab. Brown was mistreated by Patel his superior.

14. Brown had asked repeatedly for updated materials, business cards, and marketing tools as former representatives had at their disposal. Brown was forced to use old materials without dated information and in correct address on them. (See Exhibit A1 - A6). Mr. Brown asked on several different occasions for clarity on when marketing materials, updates, via email and text messages. (See Exhibit's B1 - B10).

15. On September 25, 2023, Brown & Patel had left a meeting at Dr. Bishai office in Conroe, Texas. Brown and Patel went to have a discussion and debrief how that meeting went with Dr. Bishai. Brown followed Patel to Mia's Table in Shenandoah, Texas for a late lunch. Brown purchased lunch for the office of Dr. Bishai from Schlotzsky's Deli, Patel mentioned he could not eat much bread, due to his glucose and health reasons. Patel also mentioned to Brown that the next time he ordered lunch to use Patel's girlfriend who owned a local Quiznos Deli in the Sugarland, Texas area. Patel went on to say, he and his girlfriend would be having dinner that evening and asked if Brown and his husband would like to join them for dinner. Brown stated, "I do not have a husband". Brown transitioned the conversation to Mile IQ and brought up about purchasing the full app so it would give a more precise location, rather than just the address, and also would give the business name alongside the address. Patel was aware that the Mile IQ was a free application, but for a precise location it would have to be purchased. (See Exhibit C1 - C26). Brown then informed Patel, he had a few more offices to visit and Brown said he would see Patel the following day at the office. Brown asked Patel about his name tag, marking materials, business cards, etc. Patel stated, "I will approve the materials in the morning."

16. Mr. Brown asked repeatedly in every meeting about marketing materials, business cards, name badges, etc. On a weekly basis Brown sent over emails and offices that had been visited by Brown. Brown physically gave Patel a detailed list of offices and documents of the offices he had visited and emailed, even though Brown did not have the proper tools to be effective in his job duties. (See Exhibit's D1 - D35).

17. Brown was hired as a salary employee, and without notice Patel had moved Brown from salary to hourly and had adjusted Browns time without Brown's knowledge. When Brown brought it up to Patel on December 15, 2023, Patel informed Brown he could accept the

change or quit. Brown was only trying to ask why he was not informed of the change either via email, text message, or in writing so it could be signed by Brown and noted of the change. Brown pointed out as it states in the “Employee Handbook Acknowledgment” Paragraph 3, Sentence 2, “Changes could be made however, the employee should be notified in writing.” (See Exhibit E1). Patel went on to say, “I don’t know about your kind.” He also stated, “Look Bryce, are you going to accept the change or not?” As I said earlier, “Accept it or Not.” On December 18, 2023 around or about 11:15 AM, Brown went into what would be his last meeting with Patel. Brown felt after his last interaction from the previous workday on December 15th, he should record the meeting so there would be no misunderstanding if something was said. Now, during Brown’s time employed at G&A Outsourcing lll LLC DBA, OnPoint Lab, he always gave proper documentation and details of his were about. Patel humiliated and publicly embarrassed Brown just moments before OnPoint Lab’s Christmas Party by firing Brown and making a scene.

18. Patel never stated nor did he give Brown any clear messages that he was unhappy with Brown’s performance and work skills. When Brown was fired, he was blindsided. Patel failed to approve new marketing materials. Patel knew Brown needed the MileIQ full version to give the precise location as to where Brown had traveled. Patel did not give Brown the proper tools to succeed. A letter was drafted by G&A Outsourcing lll LLC DBA, OnPoint Lab (See Exhibit F1), they requested proper documentation and expectations will be set once the marketing materials were finalized by Patel. As noted in (Exhibit F1), Brown did make attempts and updated marketing materials (See Exhibit’s B1-B10, C1-C27, D1 -D35) these exhibits all contradict what Patel and G&A Outsourcing lll LLC DBA, OnPoint Lab are stating. After being terminated Brown filed with the Texas Workforce Commission for his unemployment. Patel and G&A Outsourcing lll LLC DBA, OnPoint Lab contested the States decision in awarding Brown

his unemployment. Patel and G&A Outsourcing III LLC DBA, OnPoint Lab withdrew its motion to contest the day of hearing. The State then kept its original decision in favor of Brown. Patel was asked a series of questions, which Brown responded to Patel's response. (See Exhibit's G1-G16). Brown believes his termination was due to the questions Brown brought forth about the salary going to hourly. Brown asked repeatedly, verbally, written emails and text messages numerous times about the marketing materials. Former employees who were not of African American Descent did not have to wait and use out dated information.

19. Brown submitted the charge of racial discrimination, sexual discrimination, retaliation, and wrongful termination to the EEOC on March 19, 2024, 92 days after his termination and Charge No: 460-2024-04187 was heard on October 3, 2024. The Notice of Right To Sue was issued on October 4, 2024 and filed with the Southern District Court of Texas on December 20, 2024. Case Number: 4:24-cv-05036 is not time barred and was filed with the courts in a timely fashion.

## Cancer Genomics (CGx)

Cancer Genomics allows physicians to evaluate (by collecting a buccal swab sample) a patient's risk for developing hereditary cancer based on the inherited gene mutations that we test for (Ex: BRCA1 and BRCA2).

Each gene that we test for is associated with one or multiple different types of cancers. But which cancers and the exact risk will be determined by the type or types detected. Results can be expected in 3-4 weeks.

## Respiratory Pathogen Panel

Although respiratory viruses and bacteria are one of the most common reasons for office visits, they are still considered a serious illness that requires pre-cautionary treatment. With the presence of covid in the mix of an array of illnesses it can be difficult to diagnose, treat and prevent spread of illnesses without factual information.

The Respiratory Pathogen Panel is a swab collected and used to detect bacterial and viral respiratory illnesses. This allows physicians to diagnose and start treatment in a timely manner. RPP is also known to reduce the cost of care and support key quality initiatives for patients who test positive.
